

Thank you for your interest in WE Design Atlanta. WE Design Atlanta exists to offer Pro Bono design services to help non-profits make the most of design, consulting and collaborative efforts to successfully communicate with clients, donors, and volunteers, eliminate high costs, communication barriers, and other obstacles to project success and raise the standards of art, design and communications in the community by serving as an art, design and communications resource. Our goal is to support interesting people, organizations, and ideas without sacrificing quality. Our work involves supporting local Atlanta and their creative endeavors while partnering with other designers, grass-roots, and creative organizations.

“We believe in designing a better world by
coming together, sharing together, creating together and
ultimately succeeding together!”
